Customized anatomical specimens

The ATT Center (Anatomy Techniques & Training Center) is dedicated to practical courses on all ranges of the medical sector, as well as surgical techniques on cadavers.

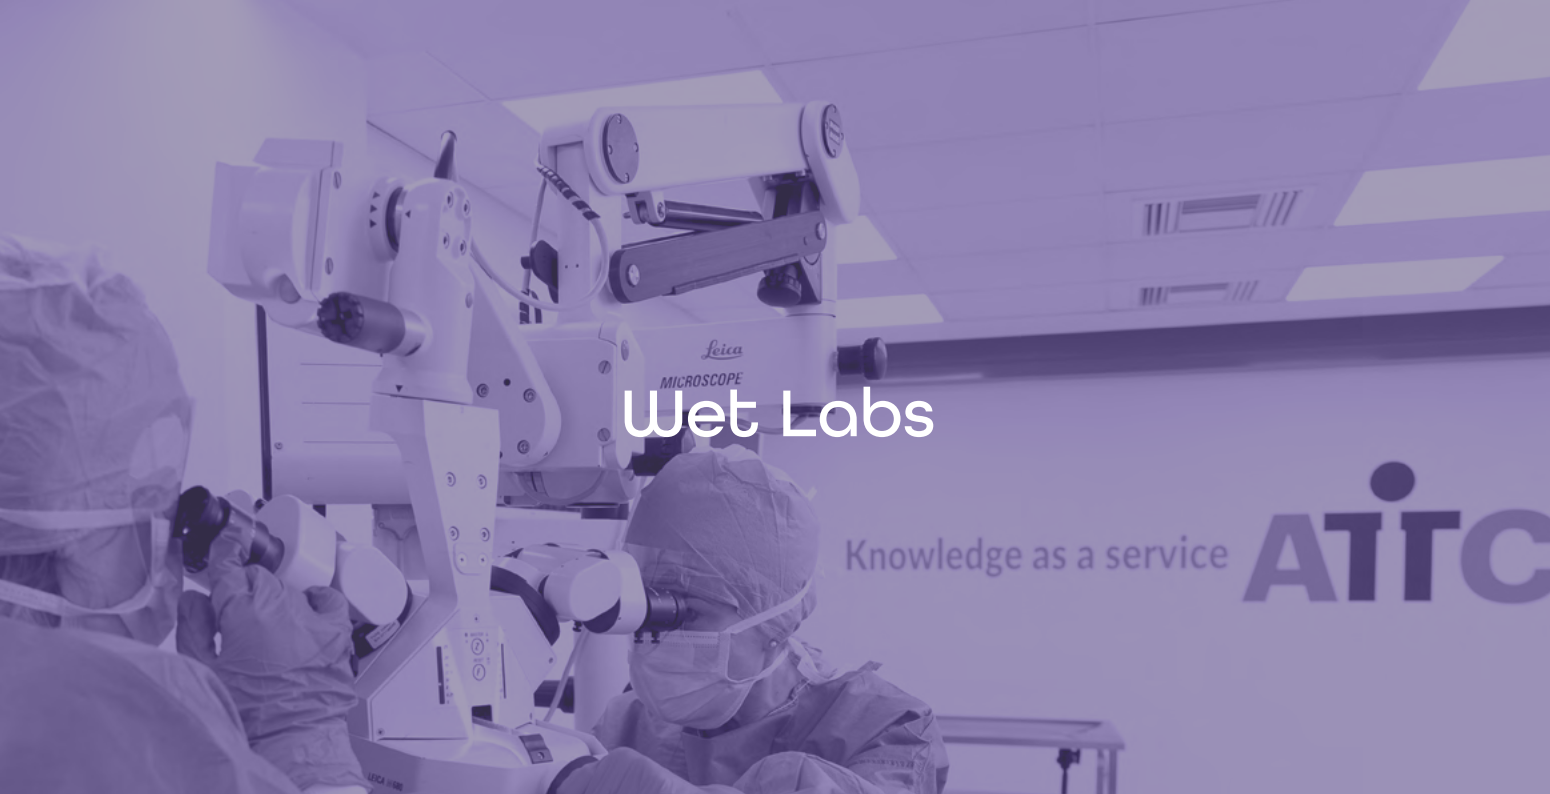

It offers health care professionals of all medical specialties and nurses the most suitable space and equipment for developing and expanding their medical and surgical experience.

Mission

The ATT Center focuses on the continuing medical education of doctors, nurses and medical practitioners providing the tools so they can familiarize themselves with new approaches and techniques with the purpose of learning through practice, in a safe and risk-free environment and add to their “flight hours”.

The ATT Center offers training in fields that cannot be taught through conventional university education.

The aim is to have medical professionals that are stress-free, that are up to date with current trends, and to have their patients feel secure and content.

The halls

Aula Conference Hall

The largest conference hall is located on the 2nd floor, boasts modern meeting equipment, and has natural sunlight, with floor to ceiling windows and a flat screen monitor for projecting directly from a laptop or other portable device. This multipurpose hall is ideal for meetings, executive conferences, and social events. Moreover, it offers the opportunity for live broadcast to the smaller seminar rooms.

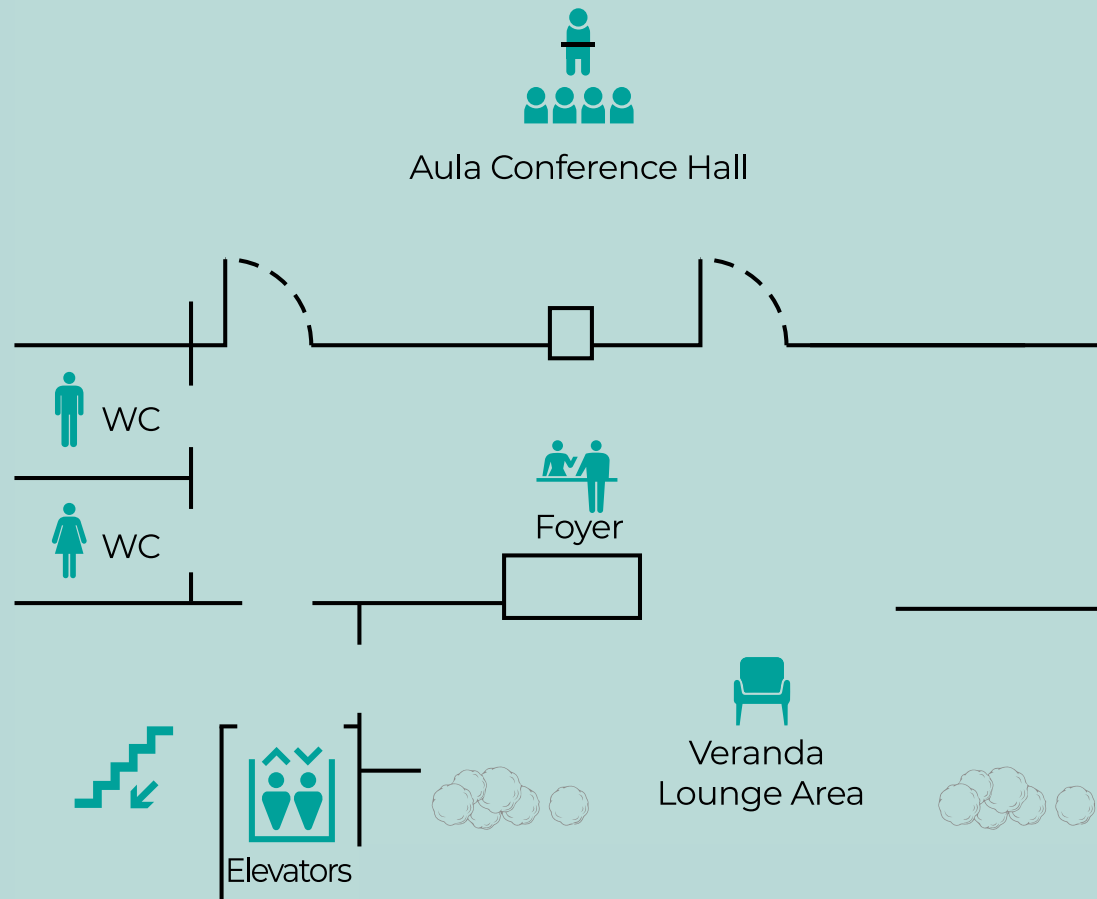

Veranda

Adjacent to the Aula conference hall is the Veranda coffee point. To guarantee good mood and for participants to recharge, this warm space has been reserved for snack breaks. Very similar to an open-air veranda, hence the name, this is the ideal area to socialize and converse with your peers.

The labs

Vesalius Lab

Located on the ground floor, the Vesalius lab has 9 working stations, surgical lighting, and instrumentation side tables. It is the ideal area for hands-on cadaver courses or dry labs. The lab is prepared and arranged in advance by qualified personnel, which also offers support during the courses (cleaning, sterilizing instruments, tool management etc.).

FEATURES

- / 9 anatomy tables
- / Surgical lighting
- / Flooring system with special surgical operating room coating
- / Ventilation system with 13 air changes per hour (ACPH)
- / 2 large wash basins
- / Sterilization point
- / Instrumentation tables
- / Extremity holders
- / Two – way live broadcast connection between the lab and the Aula conference hall

Reception

The front desk is located on the ground floor. The personnel will welcome you and will assist with any matter regarding the center's activities and educational program.

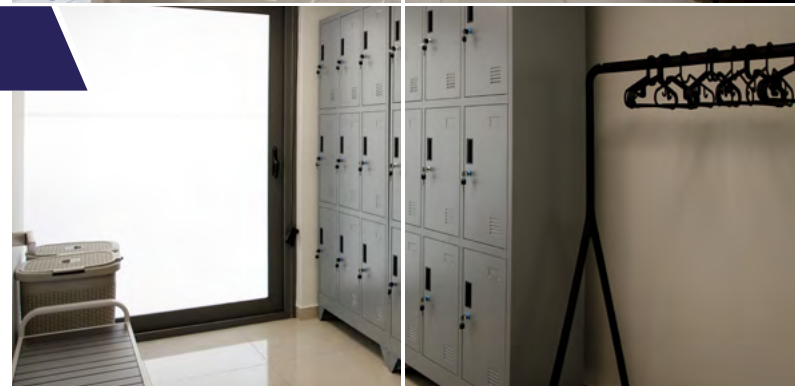

Lounge

Located on the ground floor of the facility, adjacent to the Vesalius Lab is the center's lounge, with eatery station for lunch breaks. The staff will handle all requests and provide you with necessary information.

Cloakrooms

2 cloakrooms with individual spacious cabinets are adjacent to the Vesalius lab. All personal items can be stored securely. Personal locker room keys are handed at the reception.
